

MARSHALL DIALS IT UP TO 11 WITH THE INTRODUCTION OF BROMLEY 750, ITS FIRST EVER PARTY SPEAKER.

26th August 2025 - **Blending cutting edge technology with iconic design, Marshall makes a bold statement with the launch of its first ever party speaker, Bromley 750. From history-making live concerts and stadium shows to intimate gatherings at home, Marshall knows more than anyone how to harness the power of music to bring people together. Whether it's on the street, in a warehouse, around a field or simply at home, Bromley 750 commands attention with unbeatable acoustics in a powerful, show-stealing Bluetooth speaker that keeps the party alive, no matter the place or mood.**

Featuring 40+ hours of playtime, 360° True Stereophonic sound that can be heard at all volumes, in all directions and a distinct Marshall design, Bromley 750 brings thunderous sound and looks to match without ever losing momentum.

Bromley 750 adapts and brings the vibe to suit the location with the help of a new sound character knob that can toggle between 'dynamic' or 'loud'. This new sound character feature packs the characteristics of multiple speakers into one touchpoint and empowers users to control the dynamics and tonal balance of their sound to adjust punchiness and clarity. Get clearer sound when listening in the living room or switch to loud for a punchier sound while listening outdoors.

Housed in a tactile and premium Marshall design, with a brushed metal control panel, a water-based PU leather wrap and stamped metal grill, Bromley 750 is guaranteed to stand out among the crowd. But it's much more than just a showpiece – dirt and rain are no match for Bromley 750, thanks to its IP54 rating.

With integrated stage lighting and two combo jacks for mic and instrument inputs, Bromley 750 comes fully equipped for any celebration. The exchangeable battery, that also doubles as a power bank, plus built-in handles and wheels, means you can get the party rolling to the next destination without interruptions.

"When we first considered entering the party speaker category, we saw an opportunity to bring something different to a uniform market. By staying true to our identity and what we are great at—prioritizing iconic

design and superior acoustics—we've created a standout product that brings something fresh to an otherwise homogenous category” said Hanna Wallner, Product Manager at Marshall Group.

“We designed Bromley 750 to be something you want to keep out and show off — a speaker that becomes part of your home and interior. The design is rooted in our heritage, with ‘party’ at its core. It’s bold and straightforward, with every material chosen for a reason — to both look good and withstand countless parties to come. Inspired by stage lighting, we’ve incorporated lights in a new way, enhancing the atmosphere and elevating the entire experience” added Ella Renneus, Senior Manager Design at Marshall Group.

Bromley 750 will go on sale from 23rd September at [Marshall.com](https://marshall.com) priced at £899.99. Sign up on [Marshall.com](https://marshall.com) for more information including pre-orders. Available at select retailers from 30th September.

Please see below for full specs and further information.

BROMLEY 750 x DENZEL CURRY

To celebrate the launch of Bromley 750, Marshall joined forces with Denzel Curry, an artist who embodies the Marshall spirit of rock ‘n’ roll with his mosh-pit-provoking live performances and genre-defying approach to music.

In a new video we follow Denzel as he goes back to his hometown of Miami after a long tour to touch base with the people who matter to him the most. This is a story about grounding yourself in family, friends, and your community. It shows how music is about more than just lyrics and instruments. It’s a shared language that brings people together and makes you stronger.

So, it’s only natural that he’d meet up with them to recharge after his latest career milestone and before embarking on his next music project. Inspired by Miami’s vibrant history of block parties and cookouts, Bromley 750 is brought along for the ride. Watch the video [here](#).

“Coming home to family and friends after tour was a blessing and it’s moments like these that are inspiration to my music and my world. It’s only right I bring the energy back home so it was a lot of fun to catch up at one of my favorite local spots in Miami, over great food and music. Music has this amazing power to bring people together and so I’m always excited to get involved in projects like this one with Marshall. Shout out to the Bromley party speaker for bringing the vibes!” said Denzel Curry.

BROMLEY 750 KEY FEATURES

True Stereophonic: 360° True Stereophonic sound hits every corner of the room and finds its way through the crowd, no matter where you're standing. Discover a powerful sound to fill warehouses, streets, or fields, that can't help but draw you in. Double top tweeters have been placed to push sound up and overhead, delivering a full-bodied audio experience. Hear every detail no matter the volume thanks to crystal-clear sound that has you feeling every beat.

40+ hours of portable playtime: Get off the beaten track for 40+ hours without the party ever losing momentum. Bromley 750 never misses, no matter the volume. It sounds just as good from track one to the final moment of your set. When power is running low, replace with a backup battery for an extra boost, or use the AC cable to plug in your speaker. This can also be used to recharge your battery.

Sound character control: Match the music to the pace of your party and give the crowd a sound that fits perfectly to the setting. Sound character control takes you from pre-party mingling to the peak and then straight to the after-party with a few simple adjustments. Pick 'Loud' when you need full power in a large space, or 'Dynamic' for more laidback listening at home. Bromley 750 is ready for wherever the party takes you.

Integrated stage lights: Illuminate and mesmerise the room with stage-inspired lights that synchronise to fit the mood. Pick from three presets on the speaker that each put on their own unforgettable show. The first preset creates the perfect ambient lighting to set the tone of the party, while the second and third gradually up the energy by dynamically moving to the music. Light it up with Bromley 750 and throw a party you can see, hear and feel.

Mic & instrument inputs: Bromley 750 has been designed with all the inputs you need to connect mics, instruments, and turntables for the ultimate party. Play with audio effects to switch up who gets the limelight or keep everything in balance with simple adjustments on the control panel.

Dirt & splash resistant: Bromley 750 is built to perform both indoors and outdoors. It can handle a little rain and dirt thrown at it thanks to its IP54 rating. If your speaker ever does get wet, the built-in drainage system by the top tweeters is there to make sure it doesn't cause any trouble. A bit of dust in between parties is no problem either.

Built-in handle & wheels: Over sixty years of taking music on the road means we know how to put on a good tour. Bromley 750 is fully transportable thanks to its wheeled design, and it's ready to go however impromptu the call. This speaker wasn't designed to stand still. Tilt and use the wheels for getting out the door, then use the handles along the side to lift up and down stairs, or into a car. The design means it should just take one person to start a party.

BROMLEY 750 TECHNICAL INFO

Physical unit	Dimensions	652 x 413 x 355 mm
	Weight [kg]	23.9kg
	Materials	7% of the total product is made from recycled materials. 13% is made out of plastic and 52% is GRS-certified post-consumer recycled plastic.

	Power Input	100-240V 50/60Hz
	USB-C charging port	5V–3.0A

Battery	Playtime	40+ hours
	Quick charge	20 minutes gives 5 hours of playtime
	Charging time	3.5 hours to full recharge
	Exchangeable battery	Yes
	Battery information	Rechargeable, replaceable, LFP battery (LiFePO4)

MAKING OUR PRODUCT LAST LONGER

Longer lifespan: Your Marshall speaker should be enjoyed for years to come, so we build our products to be durable enough to withstand wear and tear from regular use. We also design them with new features in mind so that you can get more out of them for longer. As well as the latest Bluetooth technology, you can download OTA updates so that your product always has the latest software. Bromley 750 also comes with a robust battery designed to last and easily be replaced. Through the website [\[https://www.marshall.com/support\]](https://www.marshall.com/support) we offer authorised repair services* so your product can be fixed, and old parts can be simply recycled.

Materials: When switching to more responsible materials, we focus on recycled sources and better chemicals. 52% of the plastic in Bromley 750 is **post-consumer recycled**,** made from preloved products, including automotive parts and toys. The replaceable LFP battery is free from cobalt and nickel meaning less toxic waste during production whilst also offering a longer lifespan. Bromley 750 has been made with water-based PU leather, and the entire product is PVC free.***

For more details on our sustainability efforts, go to group.marshall.com to read our 2024 Sustainability Report.

** Models eligible for authorised repair services may vary in different markets. Offering and expanding our repair solutions is one of our top priorities. Visit our support page for the latest information.*

*** 13% of the product consists of plastic of which 52% is GRS certified post-consumer recycled plastic. Percentage breakdown is based on weight and excludes any plastic that can be found in electronic components due to the lack of detailed material knowledge in every component.*

****Some unique power cables for smaller markets can't be supplied PVC free.*
